About us

Our company was established in 1994. Since then the company has expanded substantially with an increasing number of employees, presently with an annual turnover of 27 million USD. The company has grown since 1994 to become one of the largest groups in the RMG sector of Bangladesh. This expansion towards the future has added stability to our business obligation, winning customers confidence in our product quality, reliability and competence. Our motto “Customer and Quality Above All” has kept our customer’s requirements and expectations achieved.

About us

THE MANAGING DIRECTOR

The Managing Director, Syed Nazmul Hassan, has been in this business since completing his MBA from USA in 1992 and is now currently successfully managing this composite T-shirt unit with a state of the art Dyeing, Printing and Accessories Unit. Along with the modern technology, the company employs a management team of highly capable, qualified and dynamic individuals in their own distinct fields. The team under the leadership of the managing director leave no stones unturned to achieve the common goal of satisfying the customers.

OUR BELIEF

Quality is never an accident and is always the result of high intent, sincere effort, intelligent direction and skillful execution of our employee teams.

OUR MISSION

Our mission is to become the market leader in satisfying our customers with the best quality knitted garments from Bangladesh to places around the globe.

OUR VISION

To be an environment friendly organization with high social commitment.

Moisture Control Room

Prevent Bad Odour, Mould, Fungi and Mildew during Packaging, Storage and Transit

Adequate protection against moisture damage is an imperative for Garments exporters worldwide. Garments absorb moisture during the making and packaging process and develop bad odor, fungi, mould and mildew during their storage and long transit period. Garments packaging and storage in a moisture controlled environment is vital to eliminate bad odor and ensure safe storage and transportation of garments to avoid client's rejection.
